Note: See 5G device, coverage, and access details at T-Mobile.com. Opensignal Awards - 5G Global Mobile Network Experience Awards, T-Mobile USA large land mass group & T-Mobile Puerto Rico small land mass group, 2024, based on independent analysis of mobile measurements recorded during the period January 1 -June 29, 2024 © 2024 Opensignal Limited.

T3.1

- (1) AT&T Inc. historically does not disclose postpaid net account additions. Comcast and Charter do not disclose postpaid phone net customer additions. Industry leading claims are based on consensus expectations if results are not yet reported.
- (2) Core Adjusted EBITDA and Adjusted Free Cash Flow are non-GAAP financial measures. These non-GAAP financial measures should be considered in addition to, but not as a substitute for, the information provided in accordance with GAAP. Reconciliations for these non-GAAP financial measures to the most directly comparable GAAP financial measures are provided in the Reconciliation of Non-GAAP Financial Measures to GAAP Financial Measures tables. We are not able to forecast Net income on a forward-looking basis without unreasonable efforts due to the high variability and difficulty in predicting certain items that affect Net income, including, but not limited to, Income tax expense and Interest expense. Core Adjusted EBITDA should not be used to predict Net income as the difference between this measure and Net income is variable.

T4.1

Postpaid Accounts (in thousands)

Year-Over-Year

Continued growth in Postpaid accounts with a decrease in net additions primarily due to:

- Fewer High Speed Internet only additions due to the sunsetting of promotional pricing

Sequential

Continued growth in Postpaid accounts with an increase in net additions primarily due to:

- Seasonally higher gross additions
- Mostly offset by seasonally higher deactivations

Year-Over-Year

Postpaid ARPA increased 4% primarily due to:

- Higher premium services, primarily high-end rate plans, net of contra revenues for content included in such plans, and discounts for specific affinity groups (55+, military, and first responders)
- An increase in customers per account, including continued adoption of High Speed Internet
- The impact from rate plan optimizations
- Partially offset by increased promotional activity and an increase in High Speed Internet only accounts

T4.2

Postpaid phone ARPU increased 2% due to:

- Higher premium services, primarily high-end rate plans, net of contra revenues for content included in such plans, and discounts for specific affinity groups (55+, military, and first responders)
- The impact from rate plan optimizations
- Partially offset by increased promotional activity and growth in business customers with lower ARPU given larger account sizes

Sequential

Postpaid ARPA increased 2% due to:

- Higher premium services, primarily high-end rate plans, net of contra revenues for content included in such plans, and discounts for specific affinity groups (55+, military, and first responders)
- The impact from rate plan optimizations
- An increase in customers per account, including continued adoption of High Speed Internet
- Partially offset by increased promotional activity and an increase in High Speed Internet only accounts

Sequential

Postpaid phone ARPU increased 1% due to:

- The impact from rate plan optimizations
- Higher premium services, primarily high-end rate plans, net of contra revenues for content included in such plans, and discounts for specific affinity groups (55+, military, and first responders)
- Partially offset by increased promotional activity

Postpaid ARPA & Postpaid Phone ARPU

T5.1

Postpaid Customers (in thousands)

Year-Over-Year

Postpaid phone net customer additions increased primarily due to:

- Higher prepaid to postpaid migrations
- Lower churn
- Higher gross additions
- Partially offset by increased deactivations from a growing customer base

Postpaid other net customer additions increased primarily due to:

- Higher prior year deactivations of lower ARPU mobile internet devices in the educational sector that were activated during the Pandemic and no longer needed
- Partially offset by lower net additions from wearables and High Speed Internet

Sequential

Postpaid phone net customer additions increased due to:

- Seasonally higher gross additions
- Partially offset by seasonally higher churn

Postpaid other net customer additions increased primarily due to:

- Higher prior quarter deactivations of lower ARPU mobile internet devices in the educational sector that were activated during the Pandemic and no longer needed
- Partially offset by lower net additions from wearables

T5.2

Year-Over-Year

Postpaid phone churn decreased 1 basis point.

Sequential

Postpaid phone churn increased 6 basis points primarily due to:

- Seasonal trends

Postpaid Phone Churn

T6.1

Prepaid Customers (in thousands)

During Q2 2024, we acquired 3.5 million prepaid customers, net of certain base adjustments, through the acquisition of Mint Mobile and Ultra Mobile.

Year-Over-Year

Prepaid net customer additions decreased primarily due to:

- Continued moderation of prepaid industry growth
- Higher prepaid to postpaid migrations
- Lower net additions from High Speed Internet
- Partially offset by higher net additions following the acquisition of Mint Mobile and Ultra Mobile

Sequential

Prepaid net customer additions decreased primarily due to:

- Continued moderation of prepaid industry growth and higher seasonal churn
- Partially offset by higher net additions from a full quarter of Mint Mobile and Ultra Mobile operations

T6.2

Year-Over-Year

High Speed Internet net customer additions decreased primarily due to:

- Increased deactivations from a growing customer base
- Lower gross additions driven by sunsetting of promotional pricing
- Partially offset by a lower churn rate

Sequential

High Speed Internet net customer additions increased primarily due to:

- Higher gross additions
- Mostly offset by increased deactivations

High Speed Internet Customers (in thousands)

T7.1

Service Revenues (\$ in millions)

Year-Over-Year

Service revenues increased 5% primarily due to:

- Increase in Postpaid service revenues
- An increase in Prepaid service revenues, primarily driven by the impact of the acquisition of Mint Mobile and Ultra Mobile
- Partially offset by a decrease in Wholesale and other service revenues, primarily driven by lower MVNO revenues, including the impact of the of acquisition of Mint Mobile and Ultra Mobile and lower Affordable Connectivity Program and Lifeline revenues

Sequential

Service revenues increased 2% primarily due to:

- Increase in Postpaid service revenues
- An increase in Prepaid service revenues, primarily driven by the impact of the acquisition of Mint Mobile and Ultra Mobile
- Partially offset by a decrease in Wholesale and other service revenues driven primarily by lower Affordable Connectivity Program revenues and the impact of the acquisition of Mint Mobile and Ultra Mobile

T7.2

Year-Over-Year

Postpaid service revenues increased 8% primarily due to:

- Higher postpaid ARPA
- Higher average postpaid accounts

Sequential

Postpaid service revenues increased 3% primarily due to:

- Higher postpaid ARPA
- Higher average postpaid accounts

Postpaid Service Revenues (\$ in millions)

T8.1

Equipment Revenues (\$ in millions)

Year-Over-Year

Equipment revenues increased 4% primarily due to:

- A higher average revenue per device sold, net of promotions, primarily driven by an increase in the high-end phone mix
- Higher liquidation revenue primarily due to a higher number of in-house liquidated devices, including the impact from the transition of certain device recovery programs from external sources to in-house processing resulting in a change in presentation from Other revenues to Equipment revenues
- Partially offset by a net decrease in the total number of devices sold, driven by lower Assurance Wireless and prepaid devices, partially offset by higher postpaid devices

Sequential

Equipment revenues increased 3% primarily due to:

- A higher average revenue per device sold, net of promotions, primarily due to a seasonal increase in the high-end phone mix
- Slightly offset by a net decrease in the total number of devices sold, driven by lower Assurance Wireless sales which were mostly offset by a higher number of postpaid devices sold due to seasonality

Year-Over-Year

Cost of equipment sales, exclusive of Depreciation and Amortization (D&A), increased 1% due to:

- A higher average cost per device sold, primarily driven by an increase in the high-end phone mix
- Higher liquidation costs primarily due to a higher number of in-house liquidated devices, including the impact from the transition of certain device recovery programs from external sources to in-house processing
- Mostly offset by a net decrease in the total number of devices sold, driven by lower Assurance Wireless and prepaid devices, partially offset by higher postpaid devices

Sequential

Cost of equipment sales, exclusive of D&A, increased 5% primarily due to:

- A higher average cost per device sold due to a seasonal increase in the high-end phone mix

Sequential

- Slightly offset by a net decrease in the total number of devices sold, driven by lower Assurance Wireless sales which were mostly offset by a higher number of postpaid devices sold due to seasonality

Cost of Equipment Sales, exclusive of D&A (\$ in millions)

- T8.2
- Higher liquidation costs primarily due to a higher number of in-house liquidated devices, including the impact from the transition of certain device recovery programs from external sources to in-house processing
 - Mostly offset by a net decrease in the total number of devices sold, driven by lower Assurance Wireless and prepaid devices, partially offset by higher postpaid devices

T9.1

Cost of Services, exclusive of D&A (\$ in millions, % of Service revenues)

- Cost of services, ex. D&A and Special Items
- Merger-related costs
- Other Special Items
- % of Srvc revs, ex. D&A and Special Items

Year-Over-Year

Cost of services, exclusive of D&A, decreased 6% primarily due to:

- Prior year severance and related costs of \$140 million
- Prior year Merger-related costs related to network decommissioning and integration
- Higher Merger synergies
- Partially offset by higher site costs related to the continued build-out of our nationwide 5G network

Sequential

Cost of services, exclusive of D&A, increased 2%, or \$58 million.

T9.2

Year-Over-Year

SG&A expense decreased 3% primarily due to:

- Prior year severance and related costs of \$331 million
- Higher Merger synergies
- Partially offset by higher costs as the result of the acquisition of Mint Mobile and Ultra Mobile

Sequential

SG&A expense increased slightly primarily due to:

- A \$100 million gain recognized in the prior quarter for the extension fee previously paid by DISH pursuant to the license purchase agreement for 800 MHz spectrum, which was not purchased

Selling, General and Administrative (SG&A) Expense (\$ in millions, % of Service revenues)

- SG&A expense, ex. Special Items
- Merger-related costs (gain), net
- Other Special Items
- % of Srvc revs, ex. Special Items

T10.1

Net Income

(\$ in millions, % of Service revenues)

**Year-Over-Year**

Net income was \$3.1 billion and Diluted earnings per share was \$2.61 in Q3 2024, compared to \$2.1 billion and \$1.82 in Q3 2023, primarily due to the factors described above and included the following, net of tax:

- Merger-related costs of \$114 million, or \$0.10 per share, in Q3 2023
- Severance and related costs of \$353 million or \$0.30 per share, in Q3 2023

Sequential

Net income was \$3.1 billion and Diluted earnings per share was \$2.61 in Q3 2024, compared to \$2.9 billion and \$2.49 in Q2 2024, primarily due to the factors described above.

T10.2

Diluted Earnings Per Share

(Diluted EPS)

T11.1

Core Adjusted EBITDA*

(\$ in millions, % of Service revenues)

*Excludes Special Items (see detail on page 23)

Year-Over-Year

Core Adjusted EBITDA increased 9% primarily due to:

- Higher Service revenues
- Higher Equipment revenues, excluding Lease revenues
- Partially offset by higher SG&A expenses, excluding Special Items, such as severance and related costs

Sequential

Core Adjusted EBITDA increased 2% primarily due to:

- Higher Service revenues
- Higher Equipment revenues, excluding Lease revenues
- Partially offset by higher Cost of equipment sales

T11.2

Year-Over-Year

Net cash provided by operating activities increased 16% primarily due to:

- Higher Net income, adjusted for non-cash income and expenses
- Partially offset by higher net cash outflows from changes in working capital

Sequential

Net cash provided by operating activities increased 11% primarily due to:

- Lower net cash outflows from changes in working capital
- Higher Net income, adjusted for non-cash income and expenses

The impact of net payments for Merger-related costs on Net cash provided by operating activities was \$124 million in Q3 2024 compared to \$241 million in Q2 2024 and \$345 million in Q3 2023.

Net Cash Provided by Operating Activities

(\$ in millions)

Effective November 1, 2024, following amendments to the company's Equipment Installment Plan Sale and Service Receivable Sale arrangements, all cash proceeds associated with the sale of such receivables, a portion of which is currently recognized as Proceeds related to beneficial interests in securitization transactions within investing cash flows, will be recognized as operating cash flows. These amendments will not have a net impact on Adjusted Free Cash Flow.

T12.1

Cash Purchases of Property and Equipment, incl. Capitalized Interest (\$ in millions, % of Service revenues)

Year-Over-Year

Cash purchases of property and equipment, including capitalized interest, decreased 19% primarily due to:

- Increased capital efficiencies from accelerated investments in our nationwide 5G network build-out in previous years

Sequential

Cash purchases of property and equipment, including capitalized interest, decreased 4% primarily due to:

- Planned timing of capital purchases

T12.2

Year-Over-Year

Adjusted Free Cash Flow increased 29% primarily due to:

- Higher Net cash provided by operating activities
- Lower Cash purchases of property and equipment
- Partially offset by lower proceeds related to securitization transactions, which were offset in Net cash provided by operating activities. There were no significant net cash proceeds during the quarter from securitization.

Sequential

Adjusted Free Cash Flow increased 16% primarily due to:

- Higher Net cash provided by operating activities

The impact of net payments for Merger-related costs on Adjusted Free Cash Flow was \$124 million in Q3 2024 compared to \$241 million in Q2 2024 and \$345 million in Q3 2023.

Adjusted Free Cash Flow (\$ in millions)

T13.1

Net Debt (Excluding Tower Obligations) & Net Debt to LTM Net Income and Core Adj. EBITDA Ratios (\$ in billions)

Total debt, excluding tower obligations, at the end of Q3 2024 was \$82.3 billion.

Net debt, excluding tower obligations, at the end of Q3 2024 was \$72.6 billion.

- On September 6, 2023, the Board of Directors authorized a stockholder return program for up to \$19.0 billion that will run through December 31, 2024, consisting of additional repurchases of shares and payment of cash dividends.
 - During Q3 2024, 3.2 million shares were repurchased for \$644 million.
 - On a cumulative basis, as of September 30, 2024, a total of 153.4 million shares were repurchased for approximately \$22.7 billion.
 - During Q3 2024, the company paid a cash dividend of \$0.65 per each share of common stock, or approximately \$758 million, on September 12, 2024.
 - As of September 30, 2024, the remaining authorization for stock repurchases and quarterly cash dividends through December 2024 is \$7.3 billion, with the next dividend payable on December 12, 2024.

T13.2

Stockholder Returns (\$ in millions)

2024 Outlook

- (1) We are not able to forecast Net income on a forward-looking basis without unreasonable efforts due to the high variability and difficulty in predicting certain items that affect GAAP Net income, including, but not limited to, Income tax expense and Interest expense. Core Adjusted EBITDA should not be used to predict Net income as the difference between this measure and Net income is variable.
- (2) Management uses Core Adjusted EBITDA as a measure to monitor the financial performance of our operations, excluding the impact of lease revenues from our related device financing programs. Our guidance ranges assume lease revenues of approximately \$100 million for 2024.
- (3) Capital expenditures means cash purchases of property and equipment, including capitalized interest.
- (4) Adjusted Free Cash Flow guidance does not assume any material net cash inflows from securitization in 2024.

(1) In the fourth quarter of 2023, we recognized an additional base adjustment to increase postpaid phone customers by 20,000 and increase postpaid other customers by 150,000 due to fewer customers than expected whose service was deactivated as a result of the network shutdowns.

(2) In the second quarter of 2024, we acquired 3,504,000 prepaid customers through our acquisition of Ka'ena, which includes the impact of certain base adjustments to align the policies of Ka'ena and T-Mobile.

Reconciliation of Non-GAAP Financial Measures to GAAP Financial Measures
(Unaudited)

This Investor Factbook includes non-GAAP financial measures. The non-GAAP financial measures should be considered in addition to, but not as a substitute for, the information provided in accordance with GAAP. Reconciliations for the non-GAAP financial measures to the most directly comparable GAAP financial measures are provided below. T-Mobile is not able to forecast Net income on a forward-looking basis without unreasonable efforts due to the high variability and difficulty in predicting certain items that affect GAAP net income, including, but not limited to, Income tax expense and Interest expense. Adjusted EBITDA and Core Adjusted EBITDA should not be used to predict Net income, as the difference between either of these measures and Net income is variable.

Adjusted EBITDA and Core Adjusted EBITDA are reconciled to Net income as follows:

- (1) Stock-based compensation includes payroll tax impacts and may not agree to stock-based compensation expense on the Condensed Consolidated Financial Statements. Additionally, certain stock-based compensation expenses associated with the merger with Sprint Corporation (the "Merger") have been included in Merger-related costs (gain), net.
- (2) Merger-related costs (gain), net, for the nine months ended September 30, 2024, includes the \$100 million gain recognized for the extension fee previously paid by DISH associated with the DISH License Purchase Agreement.
- (3) Legal-related (recoveries) expenses, net, consists of the settlement of certain litigation associated with the August 2021 cyberattack and is presented net of insurance recoveries.
- (4) Other, net, primarily consists of certain severance, restructuring and other expenses, gains and losses, including severance and related costs associated with the August 2023 workforce reduction, not directly attributable to the Merger which are not reflective of T-Mobile's core business activities and are, therefore, excluded from Adjusted EBITDA and Core Adjusted EBITDA.

Definitions of Terms

Operating and financial measures are utilized by T-Mobile's management to evaluate its operating performance and, in certain cases, its ability to meet liquidity requirements. Although companies in the wireless industry may not define measures in precisely the same way, T-Mobile believes the measures facilitate key operating performance comparisons with other companies in the wireless industry to provide management, investors and analysts with useful information to assess and evaluate past performance and assist in forecasting future performance.

1. **Account** - A billing account number that generates revenue. Postpaid accounts generally consist of customers that are qualified for postpaid service utilizing phones, High Speed Internet modems, mobile internet devices, including tablets and hotspots, wearables, DIGITS or other connected devices, including SyncUP and IoT, where they generally pay after receiving service.
2. **Customer** - A SIM number with a unique T-Mobile identifier which is associated with an account that generates revenue. Customers are qualified either for postpaid service utilizing phones, High Speed Internet modems, mobile internet devices, including tablets and hotspots, wearables, DIGITS or other connected devices, including SyncUP and IoT, where they generally pay after receiving service, or prepaid service, where they generally pay in advance of receiving service.
3. **Churn** - The number of customers whose service was deactivated as a percentage of the average number of customers during the specified period further divided by the number of months in the period. The number of customers whose service was deactivated is presented net of customers that subsequently have their service restored within a certain period of time and excludes customers who received service for less than a certain minimum period of time.
4. **Postpaid Average Revenue Per Account (Postpaid ARPA)** - Average monthly postpaid service revenue earned per account. Postpaid service revenues for the specified period divided by the average number of postpaid accounts during the period, further divided by the number of months in the period.

Average Revenue Per User (ARPU) - Average monthly service revenue earned per customer. Service revenues for the specified period divided by the average number of customers during the period, further divided by the number of months in the period.

Postpaid phone ARPU excludes postpaid other customers and related revenues.

Service revenues - Postpaid, including handset insurance, prepaid, wholesale and other service revenues.

5. **Cost of services** - Costs directly attributable to providing wireless service through the operation of T-Mobile's network, including direct switch and cell site costs, such as rent, network access and transport costs, utilities, maintenance, associated labor costs, long distance costs, regulatory program costs, roaming fees paid to other carriers and data content costs.
- Cost of equipment sales** - Costs of devices and accessories sold to customers and dealers, device costs to fulfill insurance and warranty claims, write-downs of inventory related to shrinkage and obsolescence, and shipping and handling costs.
- Selling, general and administrative expenses** - Costs not directly attributable to providing wireless service for the operation of sales, customer care and corporate activities. These include all commissions paid to dealers and retail employees for activations and upgrades, labor and facilities costs associated with retail sales force and administrative space, marketing and promotional costs, customer support and billing, bad debt expense and administrative support activities.
6. **Net income margin** - Net income divided by Service revenues.
7. **Adjusted EBITDA and Core Adjusted EBITDA** - Adjusted EBITDA represents earnings before Interest expense, net of Interest income, Income tax expense, Depreciation and amortization, stock-based compensation and Special Items. Core Adjusted EBITDA represents Adjusted EBITDA less device lease revenues. Core Adjusted EBITDA and Adjusted EBITDA are non-GAAP financial measures utilized by T-Mobile's management to monitor the financial performance of our operations. T-Mobile historically used Adjusted EBITDA and T-Mobile currently uses Core Adjusted EBITDA internally as a measure to evaluate and compensate its personnel and management for their performance. T-Mobile uses Adjusted EBITDA and Core Adjusted EBITDA as benchmarks to evaluate its operating performance in comparison to competitors. Management believes analysts and investors use Core Adjusted EBITDA and Adjusted EBITDA as supplemental measures to evaluate overall operating performance and to facilitate comparisons with other wireless communications services companies because they are indicative of T-Mobile's ongoing operating performance and trends by excluding the impact of Interest expense from financing, non-cash depreciation and amortization from capital investments, non-cash stock-based compensation and Special Items. Management believes analysts and investors use Core Adjusted EBITDA because it normalizes for the transition in the company's device financing strategy, by excluding the impact of device lease revenues from Adjusted EBITDA, to align with the related depreciation expense on leased devices, which is excluded from the definition of Adjusted EBITDA. Core Adjusted EBITDA and Adjusted EBITDA have limitations as analytical tools and should not be considered in isolation or as a substitute for Income from operations, Net income or any other measure of financial performance reported in accordance with U.S. Generally Accepted Accounting Principles ("GAAP").
8. **Special Items** - Certain expenses, gains, and losses which are not reflective of our ongoing performance. Special Items include Merger-related costs (gain), net, (Gain) loss on disposal groups held for sale, certain legal-related recoveries and expenses, restructuring costs not directly attributable to the Merger (including severance), and other non-core gains and losses.
9. **Adjusted EBITDA margin and Core Adjusted EBITDA margin** - Adjusted EBITDA margin is calculated as Adjusted EBITDA divided by Service revenues. Core Adjusted EBITDA margin is calculated as Core Adjusted EBITDA divided by Service revenues. Adjusted EBITDA margin and Core Adjusted EBITDA margin are non-GAAP financial measures utilized by T-Mobile's management to monitor the financial performance of our operations.
10. **Net cash provided by operating activities margin** - Net cash provided by operating activities margin is calculated as Net cash provided by operating activities divided by Service revenues.
11. **Adjusted Free Cash Flow** - Net cash provided by operating activities less cash payments for purchases of property and equipment, plus proceeds from sales of tower sites and proceeds related to beneficial interests in securitization transactions and less Cash payments for debt prepayment or debt extinguishment costs. Adjusted Free Cash Flow is utilized by T-Mobile's management, investors, and analysts of our financial information to evaluate cash available to pay debt, repurchase shares, pay dividends and provide further investment in the business.
12. **Adjusted Free Cash Flow margin** - Adjusted Free Cash Flow margin is calculated as Adjusted Free Cash Flow divided by Service revenues. Adjusted Free Cash Flow Margin is utilized by T-Mobile's management, investors, and analysts to evaluate the company's ability to convert service revenue efficiently into cash available to pay debt, repurchase shares, pay dividends and provide further investment in the business.

13. **Net debt** - Short-term debt, short-term debt to affiliates, long-term debt (excluding tower obligations), and long-term debt to affiliates, short-term financing lease liabilities and financing lease liabilities, less cash and cash equivalents.
14. **Merger-related costs** include:
- Integration costs to achieve efficiencies in network, retail, information technology and back office operations, migrate customers to the T-Mobile network and billing systems and the impact of legal matters assumed as part of the Merger;
 - Restructuring costs, including severance, store rationalization and network decommissioning; and
 - Transaction costs, including legal and professional services related to the completion of the Merger and the acquisitions of affiliates.

Cautionary Statement Regarding Forward-Looking Statements

This communication includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact, including information concerning T-Mobile US, Inc.'s future results of operations, are forward-looking statements. These forward-looking statements are generally identified by the words "anticipate," "believe," "estimate," "expect," "intend," "may," "could" or similar expressions. Forward-looking statements are based on current expectations and assumptions, which are subject to risks and uncertainties and may cause actual results to differ materially from the forward-looking statements. Important factors that could affect future results and cause those results to differ materially from those expressed in the forward-looking statements include, among others, the following: competition, industry consolidation and changes in the market for wireless communications services and other forms of connectivity; criminal cyberattacks, disruption, data loss or other security breaches; our inability to take advantage of technological developments on a timely basis; our inability to retain or motivate key personnel, hire qualified personnel or maintain our corporate culture; system failures and business disruptions, allowing for unauthorized use of or interference with our network and other systems; the scarcity and cost of additional wireless spectrum, and regulations relating to spectrum use; the impacts of the actions we have taken and conditions we have agreed to in connection with the regulatory proceedings and approvals of the Transactions (as defined below), including the acquisition by DISH Network Corporation ("DISH") of the prepaid wireless business operated under the Boost Mobile and Sprint prepaid brands (excluding the Assurance brand Lifeline customers and the prepaid wireless customers of Shenandoah Personal Communications Company LLC and Swiftel Communications, Inc.), including customer accounts, inventory, contracts, intellectual property and certain other specified assets, and the assumption of certain related liabilities (collectively, the "Prepaid Transaction"), the complaint and proposed final judgment agreed to by us, Deutsche Telekom AG ("DT"), Sprint Corporation, now known as Sprint LLC ("Sprint"), SoftBank Group Corp. ("SoftBank") and DISH with the U.S. District Court for the District of Columbia, which was approved by the Court on April 1, 2020, the proposed commitments filed with the Secretary of the Federal Communications Commission ("FCC"), which we announced on May 20, 2019, certain national security commitments and undertakings, and any other commitments or undertakings entered into, including, but not limited to, those we have made to certain states and nongovernmental organizations (collectively, the "Government Commitments"), and the challenges in satisfying the Government Commitments in the required time frames and the significant cumulative costs incurred in tracking and monitoring compliance over multiple years; adverse economic, political or market conditions in the U.S. and international markets, including changes resulting from increases in inflation or interest rates, supply chain disruptions and impacts of geopolitical instability, such as the Ukraine-Russia war and Israel-Hamas war; sociopolitical volatility and polarization; our inability to manage the ongoing commercial services arrangements entered into in connection with the Prepaid Transaction, and known or unknown liabilities arising in connection therewith; the timing and effects of any future acquisition, divestiture, investment, or merger involving us, including our inability to obtain any required regulatory approval necessary to consummate any such transactions; any disruption or failure of our third parties (including key suppliers) to provide products or services for the operation of our business; our substantial level of indebtedness and our inability to service our debt obligations in accordance with their terms; changes in the credit market conditions, credit rating downgrades or an inability to access debt markets; the risk of future material weaknesses we may identify, or any other failure by us to maintain effective internal controls, and the resulting significant costs and reputational damage; any changes in regulations or in the regulatory framework under which we operate; laws and regulations relating to the handling of privacy and data protection; unfavorable outcomes of and increased costs from existing or future regulatory or legal proceedings; difficulties in protecting our intellectual property rights or if we infringe on the intellectual property rights of others; our offering of regulated financial services products and exposure to a wide variety of state and federal regulations; new or amended tax laws or regulations or administrative interpretations and judicial decisions affecting the scope or application of tax laws or regulations; our wireless licenses, including those controlled through leasing agreements, are subject to renewal and may be revoked; our exclusive forum provision as provided in our Certificate of Incorporation; interests of DT, our controlling stockholder, which may differ from the interests of other stockholders; the dollar amount authorized for our 2023-2024 Stockholder Return Program may not be fully utilized, and our share repurchases and dividend payments pursuant thereto may fail to have the desired impact on stockholder value; future sales of our common stock by DT and SoftBank and our inability to attract additional equity financing outside the United States due to foreign ownership limitations by the FCC; and other risks as disclosed in our most recent annual report on Form 10-K, 10-Q and other filings with the Securities and Exchange Commission. Given these risks and uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements. We undertake no obligation to revise or publicly release the results of any revision to these forward-looking statements, except as required by law.
